

Blake DIMOUT

Item number 37496, KMAT 61000179

Product description

Dimout curtains are blackout fabrics that are able to reduce the usual 40% light transmission to just 1%. The degree of darkening is 99%, depending on the color. Dimout fabrics are a double satin with a black weft. These two components create a very dense, softly flowing fabric that hardly lets any light through and has excellent acoustic properties.

The coarse Panama structure gives Blake its natural character. Subtle color gradations in subtle melanges result in a color palette of 19 colorways. Blake is available room-high in a fabric width of 295 cm and can therefore be seamlessly processed.

With its natural texture, Blake is the perfect blackout curtain for hotels and care facilities.

Technical Details

Fabric width	approx. 295 cm
Weight je m²	approx. 400 g/m ²
Composition	100% Polyester FR
Flame retardancy	IMO 2010 FTP Code Part 8, IMO 2010 FTP Code Part 7, M 1, C 1, BS 5867 Typ B, EN 13773, DIN 4102 / B1, DIN 4102 / B2, NFPA 701 Flammability performance is dependant on the foam used.
Light fastness	note 5-6
Light & solar properties	{"color": "8552", "total_energy_permeability_degree": 0.39, "reduce_factor": 0.51}
Wash fastness 40°C	note 4-5

DIN EN ISO 105-C06

Dimensional change Washing 40°C warp approx. +/-1%, weft approx. +/-1%
DIN EN ISO 6330 DIN EN ISO 5077

Rubbing fastness dry: note 4-5, wet: note 4-5
DIN EN ISO 105-X12

Measured sound absorption coefficient 0.8
DIN EN ISO 354/DIN EN ISO 11654

Sound absorption Class B

Care labelling
