

Bonny

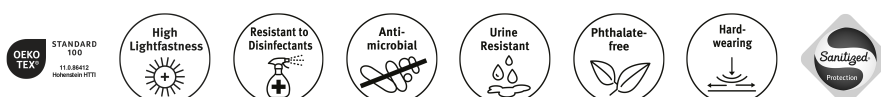

Item number 31693, KMAT 61000283

Product description

The Bonny faux leather with its broken, linen-like structure gives furniture a textile look and feel, making it the perfect complement to our Colorado faux leather. This faux leather is colourful, has a high light fastness, is Ökotex certified and has a Sanitized finish. This protects the faux leather against bacteria and mould, reduces mites and odours and thus makes it antimicrobial. It has a high abrasion resistance of 300,000 abrasion cycles and is therefore ideally suited for use in high-traffic areas such as hotels, shipping and health & care. It can also withstand frequent disinfection, making it a perfect choice for hygienically demanding environments. Whether as upholstery fabric for restaurant chairs or as a robust solution for hotel rooms, Bonny is the ideal choice.

Technical Details

Fabric width	approx. 138 cm
Weight je m²	approx. 700 g/m ²
Composition	80,8% PVC, 19,2% Polyester
Flame retardancy	IMO 2010 FTP Code Part 8, 1 / M, DIN EN 1021-2, DIN EN 1021-1 Flammability performance is dependant on the foam used.
Light fastness	note 6
Rubbing fastness	dry: note 4-5, wet: note 4-5

DIN EN ISO 105-X12

Abrasion to Martindale
DIN EN ISO 12947-2
DIN EN 14465-2006

approx. 300000 rubs
