

Chester DIMOUT

Item number 36416, KMAT 61000149

Product description

Dimout curtains are blackout fabrics that are able to reduce the usual 40% light transmission to just 1%. The degree of darkening is 99%, depending on the color. Dimout fabrics are a double satin with a black weft. These two components ensure a very dense, softly flowing fabric that hardly lets any light through and has excellent acoustic properties. Chester DIMOUT is an all-over herringbone design. The Bond DIMOUT article is the counterpart to Chester, a stripe design in which melange and herringbone structures alternate. Both can be perfectly combined with each other as they are color-coordinated. Dimouts like Chester darken bedrooms and hotel rooms and enable a peaceful night's sleep. But dimouts are also excellent curtains in retirement homes, crane houses or daycare center bedrooms. The dimout is used wherever there is a lack of classic external shading.

Technical Details

Fabric width	approx. 150 cm
Weight je m²	approx. 275 g/m ²
Composition	100% Polyester FR
Flame retardancy	IMO 2010 FTP Code Part 7, M 1, BS 5867 Typ B, EN 13773, DIN 4102 / B1, DIN 4102 / B2 Flammability performance is dependant on the foam used.
Light fastness	note 4-5
Wash fastness 40°C DIN EN ISO 105-C06	note 4-5
Dimensional change Washing 40°C	warp approx. +/-1%, weft approx. +/-1%

DIN EN ISO 6330 DIN EN ISO 5077

Rubbing fastness
DIN EN ISO 105-X12

dry: note 5, wet: note 5
