

Finn

Item number 32889, KMAT 61000300

Product description

The requirements for modern upholstery fabrics are diverse; they should be extremely hard-wearing and easy to work with, but also have a natural look and feel. A wide range of colors increases the possible applications. Finn has all these properties. It is an extremely hard-wearing upholstery fabric in a mélange wool look and is characterized by its warm feel, which is hardly distinguishable from a real wool quality. The colourful fabric with its soft multicolour look blends harmoniously into the room. The wide range of colors offers plenty of choice. In addition to beautiful multicolored natural and gray tones, there are also easily combinable tones such as cornflower, berry, lime and aqua. With 100,000 abrasion cycles, it is particularly robust and therefore perfect for use in the hotel & restaurant sector. Its acoustic values are also impressive. Due to its colorfulness and wool character, Finn corresponds perfectly with the Manchester wool item.

Technical Details

Fabric width	approx. 150 cm
Weight je m²	approx. 400 g/m²
Composition	80% Polyester Trevira CS/20% Polyester cat.
Flame retardancy	IMO 2010 FTP Code Part 8, IMO 2010 FTP Code Part 7, 1 / M, BS 5852 CRIB 5, BS 5867 Typ B, EN 13773, DIN EN 1021-2, DIN EN 1021-1, DIN 4102 / B1, DIN 4102 / B2, NFPA 701, MVSS 302, CAL TB 117, NFPA 260 Flammability performance is dependant on the foam used.
Light fastness	note 5-6
Wash fastness 40°C	note 5

DIN EN ISO 105-C06

Dimensional change Washing 40°C
DIN EN ISO 6330 DIN EN ISO 5077

warp approx. +/-2%, weft approx. +/-2%

Rubbing fastness
DIN EN ISO 105-X12

dry: note 5, wet: note 5

Abrasion to Martindale
DIN EN ISO 12947-2
DIN EN 14465-2006

approx. 100000 rubs

Pilling
DIN EN ISO 12945-2

Note 5 at 2000 rpm
