

Manchester

Item number 32470, KMAT 61000292

Product description

Wool is an extraordinary natural fiber that produces extremely high-quality and sustainable fabrics thanks to its properties. Obtained from sheep's fur, wool is a renewable raw material. The positive properties of wool result from the complex structure of the fiber. They radiate warmth and homeliness and can have both a cozy and puristic appearance. This beautiful Manchester wool melange differs from the other wool items due to its Panama weave. Manchester is a modern decorative and upholstery fabric with the best acoustic properties in soft, delicate colors. The pastels are complemented by a strong coral red, peach, ice blue and mint.
