

## Spencer

Item number 34570, KMAT 61000103

### Product description

Spencer is a universal talent in the field of upholstery fabrics. With its 65 colors, it offers a wide range of design options. The canvas fabric has a modern, purist look and creates highlights through the use of different colored yarns in the warp and weft. The range of this upholstery fabric is made up of different looks: 1. the plain look is monochrome and clean. 2. the two-tone fabric has a contrasting appearance. 3. the melange character radiates cosiness with its woolly appearance. 50,000 abrasion cycles and a light fastness of 6 make it a durable upholstery fabric for the contract sector. Spencer is particularly interesting for the Scandinavian market as it is Oeko-Tex certified and meets the requirements of Möbelfakta.
