

Tender DELINIGHT

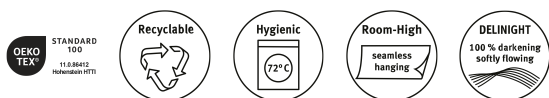

Item number 28039, KMAT 61000095

Product description

DELINIGHT fabrics are an innovation. They darken 100% (like blackouts) and do not require a back coating. The advantage is that these fabrics are therefore recyclable and not susceptible to pinholes or other damage to the back coating, Tender DELINIGHT is a real hand flatterer thanks to the use of particularly soft, voluminous fiber yarn. Both the front and back, which are visually identical, have a natural, matt texture. This creates a relaxed, modern look that has never been seen before with such a soft, flowing, 100% blackout function. In addition to the fabric width of 280 cm, the possibility of returning the article to recycling after its life cycle is particularly interesting due to its purity. Tender has good light fastness properties (grade 5-6) and is washable at up to 72°C (hygiene wash for the healthcare sector). Special colors are possible from a minimum quantity of 350 m.
