Print Your Design

# Active Design Print Your Design

The easy way to your individual design. We print your design ideas on a fabric quality of your choice. We can realise your desires quickly and at competitive prices. Our design team supports you during every phase of the project.

## Digital Printing Technology

State of the art printing technology enables brilliant colours, sharp contours and perfect contrasts. The typical functions of the fabric such as flame-resistance, washability, light-fastness and wear-resistance remain unchanged.

## Become active!

### Your design idea

Our Active Design box offers a great selection of printed designs and corresponding colour variations. Should you not be able to find a suitable colour proposal you have the possibility to adapt the designs according to your concept with the help of our ColourLab. You immediately obtain a visual impression of your colour concept which you can print out and send to us for printing.

In combination with the RAL D2 design colour card you have a definite colour reference, independent of colour deviations of your computer screen or printer.

If you would like to have your own design printed please send us your ideas in the form of a draft, a fabric sample, a photo or a colour indication. Image files should have a resolution of at least 150 dpi in the original size; colour requests need to be noted in RAL or pantone.

### Choose the appropriate fabric

We offer fifteen different base cloths, all of which are flame-resistant. You have the choice between darkening fabrics, upholstery fabrics, decorative fabrics and sheers in narrow and sometimes also wide width.

### We produce a sample print

We will send you for approval the sample print, made according to your specifications. If needed for a mock-up room, we will produce even the smallest of quantities in a quick and uncomplicated manner.

### This is how it is done:

- select a design
- re-colour according to your needs
- select a printing base cloth
- send your enquiry to [contract@deliustextiles.de](mailto:contract@deliustextiles.de)

[www.delius-contract.de](http://www.delius-contract.de)

### Active Design offers:

- a large selection of different base cloth
- high quality,  
softly flowing contract fabrics,  
permanently flame retardent
